## Profile

Skilled IT fresher with a solid technical background in frontend development, including React, coupled with expertise in backend technologies like Node.js, Express.js, C++, and Python. Proficient in database management, ready to contribute to your team's success with a diverse skill set in full-stack development.

## Skills

### Frontend

HTML, CSS, JavaScript, React.JS, Sass.

### Backend

Node.JS, Express.JS, C++, Python, MongoDB, MySQL, Firebase.

### Others

Redux, Material UI, Chakra UI, Postman.

## Projects

### Portfolio

- Created a professional portfolio website using React.js, along with powerful libraries such as react-carousel and Framer Motion, to deliver an enhanced user experience.
- Enabled seamless conversations and streamlined data processing by connecting to a Firebase-powered form.

### CryptoMation

- Developed a responsive website displaying real-time crypto rankings & comprehensive data.
- Leveraged React.JS, Chakra UI, and react-charts to seamlessly fetch data from APIs, covering 10,000+ coins and 750+ digital exchanges, ensuring a smooth user experience.

### Todolist API

- Presenting a robust backend API designed for seamless CRUD operations, authentication, and database integration.
- Harnessing Express.js, Postman, MongoDB Compass, and JWT to provide a comprehensive backend solution with smooth data manipulation and secure user authentication, elevating the overall user experience.

### Blog WebApp

- Introducing a sleek blog web app developed with Node.js, Express.js, React.js, and MongoDB.
- Enjoy a seamless user experience for effortless content management and engagement, enhanced by a modern and intuitive interface, providing a captivating browsing experience.
